18<sup>th</sup> European White Dwarf Workshop

Kraków, Poland 13<sup>th</sup>–17<sup>th</sup> August 2012

We are pleased to announce the 18<sup>th</sup> European Workshop on White Dwarfs, to be held in the historical city of Kraków, Poland. This meeting will continue the series of workshops started in 1974, of which the last was in Tübingen, Germany in August 2010.

The topics to be covered at the conference will be similar to those of the previous meetings. Contributions in all areas of white dwarf (WD) research are welcome, including the properties of WDs in binaries, but excluding the general fields of CVs, sdB stars and planetary nebulae. We would like to maintain the spirit of previous conferences, thus allowing for oral contributions of around 20 minutes. Poster contributions are also welcome.

The workshop will also include a number of social events for the participants.

## Topics

White Dwarf structure and evolution  
Progenitors and central stars of planetary nebulae  
Binaries: White Dwarfs in CVs, double degenerates,  
White Dwarf – Brown Dwarf systems  
White Dwarf dust disks and planetary systems  
Atmospheres, chemical composition, magnetic fields  
Pulsating White Dwarfs  
White Dwarfs in stellar clusters and in the halo  
White Dwarfs as SN Ia progenitors

## Scientific Organizing Committee

Martin Barstow	United Kingdom
Pierre Bergeron	Canada
Enrique García-Berro	Spain
Scot Kleinman	USA
Jurek Krzesiński (Chair)	Poland
